

Essence: Sweet children, to know the Father accurately, as He is and what He is, and to remember Him is the main thing. Explain this aspect to human beings with great tact.

Question: What do you only study here, a study that is for the whole *universe*?

Answer: The study for the whole *universe* is: You are a soul. Consider yourself to be a soul and remember the Father and you will become pure. The One who is the Father of the whole *universe* only comes in this one age to purify everyone. Only He gives this *knowledge* of the Creator and the creation. Therefore, this is, in fact, the only *university*. You children have to explain this aspect very clearly.

Om shanti. God speaks. You spiritual children definitely understand who God is. No one in Bharat knows this accurately. He also says: No one knows Me accurately, as I am or what I am. You too are numberwise. You know this, numberwise, according to your efforts. Although you live here, you don't know Me accurately. To know the Father accurately and remember Him is very difficult. Some children might say that it is easy but you have to know Me as I am and constantly remember Me, the Father. The wise thing to keep in your intellects is I, a soul, am very tiny. My Baba, the Point, is also tiny. For half a cycle, no one even mentions God's name. People only remember Him in sorrow: O God! No human being understands who God is. You should now churn the ocean of this knowledge about how to explain to human beings. The name, "Prajapita Brahma Kumaris World Spiritual University", is written. In spite of this, they don't understand that this is also the unlimited spiritual Father's World Spiritual University. What name can it be given so that human beings understand it quickly? How can it be explained to people that this is a *university*? The word "*university*" has emerged from the word "*universe*". *Universe* means the whole *world*. This is called a *university*, in which all human beings can study. It is a *university* for the people of the *universe* to study in. In fact, only the one Father comes for the *universe*. He only has this one *university*. The *aim* and *objective* is also only one. Only the Father comes and purifies the whole *universe*. He teaches yoga. This is for those of all religions. He says: Consider yourselves to be souls. He *Incorporeal God, the Father* is the Father of the whole *universe*. So, why not call this place the *Spiritual University of Spiritual, Incorporeal God, the Father*? You have to think about this. People of the whole *world* are such that not a single person knows the Father. If they were to know the Creator, they would also know the creation. Only from the Creator can the creation be known. The Father explains everything to the children. No one else knows. Rishis and munis also say, "We don't know". So, the Father says: Previously, you didn't have any *knowledge* of the Creator or the creation. The Creator has now explained it. The Father says: Everyone also calls out to Me: Come and give us peace and happiness, because there is now sorrow and peacelessness. His very name is the Remover of Sorrow and the Bestower of Happiness. Who is He? God. How does He remove sorrow and give happiness? No one knows. Therefore, write it so *clearly* that people can understand that only *Incorporeal God, the Father*, gives this *knowledge*. You should churn the ocean of this knowledge in this way. The Father explains: All human beings have stone intellects. He is now making you into those with divine intellects. In fact, those who get at least 50% or more *marks* would be called ones with divine intellects. Those who *fail* are not those with divine intellects. No one understands why Rama has been shown with a bow and arrow. Shri Krishna has been shown killing everyone with a swadarshanchakra, whereas Rama has been shown with a bow and arrow. There's a *magazine* that's published in which it is shown how Shri Krishna slays Akasur, Bakasur etc., with the swadarshanchakra. Both have been made out to be violent and have then been made *doubly* violent. People say: They too had children. Ah, but those are viceless deities. The kingdom of Ravan definitely does not exist there. It is at this time that it is called Ravan's community. You now explain that we claim the sovereignty of the world with the power of yoga. So then, is it not possible to have children with the power of yoga? That is a viceless world. You have now become Brahmins from shudras. Explain clearly in this way, so that human beings can understand that you people are full of this knowledge. Even if someone understands a little of this aspect, you would understand that that one belongs to the Brahmin clan. For some, you will understand quickly that they are not of the Brahmin clan. Many types of people come. So, write: "*Spiritual University of Spiritual Incorporeal God the Father*", and see what happens. You have to churn the ocean of this knowledge and find the right words. For this, you need to have great tact to write something, so that people can understand that *God, the Father*, is explaining this *knowledge* here and that He teaches Raja Yoga. These phrases "liberation-in-life" and "*deity sovereignty in a second*" are also *common*. There should be such phrases that they sit in people's intellects. The land of Vishnu is established through Brahma. The meaning of "Manmanabhav" is: Remember the Father and the inheritance. You are the mouth-born creation of Brahma, the decoration of the Brahmin clan and those who spin the discus of self-realisation. They show

Vishnu with a swadarshanchakra. They show Shri Krishna too with four arms. How can he have four arms? The Father explains so clearly. You children have to become ones with broad and unlimited intellects, divine intellects. It would be said that, in the golden age, as the king and queen have divine intellects so do the subjects. That is a divine world; this is a world of stones. You are receiving this *knowledge* in order to change from human beings into deities. You are once again establishing your kingdom by following shrimat. Baba shows us the way to become kings and emperors. Your intellects are filled with this knowledge in order to explain it to others. It is also very easy to explain the cycle: Look how large the population is at this time! In the golden age, there are so few. This is the confluence. So, there would be few Brahmins. The age of Brahmins is short. After the Brahmins come the deities, then expansion continues. It is a somersault. So, if you also have a picture of the variety-form image together with a picture of the ladder, it will make the explanation *clear*. This *knowledge* of the Creator and the creation will easily fit well in the intellects of those who belong to your clan. You can tell from their faces whether they belong to your clan or not. If they don't, they listen to this knowledge like a hot pan (the knowledge sizzles and evaporates as water would in a hot pan). Sensible ones will listen with attention. Once the arrow strikes the target, they will continue to come. Some will just ask questions whereas others who are good flowers will come by themselves every day; they will understand fully and then go back. Anyone can understand from the pictures that the Father is definitely establishing the deity religion. Some will understand even without them asking questions. Others will continue to ask many questions and will still understand nothing. Then, you have to explain. There is no need to make any upheaval. Otherwise, they would say: God doesn't even protect you. You also now know what protection He gives. Each one has to settle his own karmic accounts. There are many who, when their physical health becomes bad, say: Protect us! The Father says: I come to purify the impure. You should also study this business. The Father makes you victorious over the five vices. Then they oppose you with even more force. Storms of vices attack with a lot of force. The Father says: When you belong to the Father, all of those illnesses will come out. Storms will come with full force. It is real *boxing*. They even defeat good, strong wrestlers. They say: Even though we don't want it to happen, our eyesight becomes corrupted. Their *register* becomes spoilt. You should not talk to those who have impure vision. Baba explains to the children at all the *centres* that there are many who have impure vision. If Baba were to mention their names, they would become even greater *traitors*. Those who destroy their own truth become engrossed in doing wrong things. The vice of lust takes hold of them by the nose. Maya doesn't let go. Impure deeds, impure vision, impure words emerge and the activities become impure. Therefore, you have to remain very cautious. When you children hold exhibitions etc., create such methods that anyone can understand easily. The Father Himself is teaching this knowledge of the Gita. This is not a matter of any scripture etc. This is a study. The Gita book is not used here; the Father teaches here. It is not as though He picks up any books in His hands. Where did the name, 'The Gita', come from? All of those religious scriptures were created later on. There are so many sects and "isms." Each of them has its own individual scripture. Whatever branches and twigs, small sects and "isms" exist, they all have their own scriptures etc. So, they are all children. Liberation cannot be attained from them. The Gita is remembered as the most elevated jewel of all the scriptures. There would also be the ones who recite the knowledge of the Gita. However, only the Father comes and gives this *knowledge*. It is not that He holds any scriptures etc. in His hands. Neither have I studied the scriptures, nor do I teach them to you. Those people study them and then teach them to others. Here, it is not a matter of the scriptures. The Father is definitely the *knowledge-full* One. I show you the essence of all the Vedas and scriptures. The main ones are the four religious scriptures of the four religions. Is there any scripture of the Brahmin religion? There are so many things to be understood. The Father sits here and explains all of this in *detail*. Human beings have such stone intellects and this is why they have become poverty-stricken. The deities were in the *golden age*, the palaces there were built of gold and there were mines of gold. Now there isn't any real gold. The whole story is based on Bharat. You deities had divine intellects; you ruled the whole world. You have now remembered: We were the masters of heaven; we have now become the masters of hell. We will then become the ones with divine intellects. This knowledge is in the intellects of you children. You then have to explain it to others. According to the *drama*, your *parts* continue. Whatever *time passes*, you would still be inspired to make *accurate* effort. The faces of the children who have the intoxication that God Himself is inspiring us to make effort in order to make us into the masters of *heaven* remain *first class* and radiate happiness. The Father also comes to inspire you children to make effort for your reward. Only you children know this. No one else in the world knows. God inspires you to make effort in order to make you into the masters of *heaven*. Therefore, you should be happy. Your faces should be really *first class* and radiating

happiness. By having remembrance of the Father, you will remain constantly cheerful. Only by forgetting the Father do you wilt. By remembering the Father and the inheritance, you become those who radiate happiness. You can understand about each one from the *service* that he or she does. The Father takes the fragrance of the children. There is fragrance from worthy children and a bad smell from unworthy children. In a garden, you would only want to pick fragrant flowers. Who would pick uck flowers? Only by remembering the Father accurately will your sins be absolved. Achcha.

To you sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to you spiritual children.

Essence for dharna:

1. Don't be defeated in *boxing* Maya. Pay attention so that no impure words emerge from your mouth. Never have impure eyesight, or carry out impure acts or have impure behaviour.
2. Become a *first-class* fragrant flower. Have the intoxication that God Himself is teaching you. Stay in remembrance of the Father and remain cheerful. Never wilt.

Blessing: May you keep yourself *safe* from sin with your *challenge* and your *practical* life being equal and thereby become a world server.

Let there be equality in the *challenge* that you children issue and in your *practical* lives. Otherwise, instead of becoming a charitable soul, you would become a burdened soul. Understand the philosophy of sin and charity and keep yourself *safe*, because any type of weakness, even in your thoughts or having wasteful words, wasteful intentions or feelings of dislike or jealousy increase your account of sin. Therefore, keep yourself *safe* with the blessing of, "May you be a charitable soul" and become a world server. Collectively give the experience of one direction and of having a stable stage.

Slogan: When you ignite the light of purity everywhere, everyone will easily be able to see the Father.

Have love for solitude and imbibe unity and concentration.

Before hoisting the flag of revelation, first of all before performing any action simply put one thing into practice. Have unity in all your relationships and connections. While there are many sanskars, to have unity in diversity and to have determination is your means of success. Sometimes, your unity fluctuates: "If this one does this, then I will do this." No, your slogan is: World transformation through self-transformation. It is not: Self-transformation through world transformation.
